無車縫工藝機器

### PR-450S-III 數位滑台三合一冷熱一體壓花機

### 3-III Digital slide three in one development hot embossing machine

本機適用於各種鞋面無車縫熱貼合、4D鞋面貼合。

1. 採用全智能溫度控制系統、操作簡單、溫度穩定；導熱系統經過精心分段設計、導熱均勻、熱耗能低。
2. 機臺上下發熱板全部經過熱處理及電鍍處理，長期使用不易變形，可有效保持精度。
3. 熱壓粘合時間由數字顯示及設定，精確無誤，粘合壓力可根據不同產品自由調節。
4. 採用氣油混合增壓系統，壓合效果穩定，節能環保，干淨衛生。
5. 操作桌面採用不銹鋼材料，更堅固耐用，易于清潔。
6. 增加光幕裝置，確保更好的安全防護效果。
7. 下推盤滑臺式送料設計，操作簡單，更加安全高效。
8. 雙人操作，將材料擺放至下推盤送料熱壓區，按啟動鍵自動送入并進行熱壓工作，熱壓完成自動送出材料，可最大限度保障安全生產，降低勞動強度，提高生產效率。
9. 兩熱一冷三工位并行設計，大幅提高生產效率，節省空間，冷定型系統使工件工藝更美觀穩定，效果理想。

Suitable for assembling all seamless heating uppers & 4D Shoe uppers.

1. With completely intelligent temperature controlling system, simple & stable; With dedicatedly stepwise thermal system uniform distribution & low-consumed energy.
2. The upper & the bottom heating plates, after heat treatment & being electroplated, are permanently deformation-resistant being able to keep precision.
3. Pressing time is accurately controlled and set by the digital screen; Pressing Pressure can be freely adjusted according to different requirements of the product.
4. This machine uses gas-oil mixing pressurizing system to assure the product quality, in a model of energy-saving & environment-protection, clean & sanitary.
5. With stainless steel operating table, is more durable and easier to clean.
6. With light curtain equipment, ensure better security protection effect.
7. The material-feeding plate of this machine can slide, for the purpose of easy & safe poeration, to improve production efficiency.
8. Two-person poeration mode, put the material upon the heating pressing area, open double switches to assure the safe production.

Two-person operation mode, put the material upon the conveying plate, press the start button to automatically send the material to heat pressing area, and then be automatically returned back after the pressing work is done. Maximize the safe operation to the staff, reduce labor intensity and improve productivity.

Two heat station & One cold station joint design, more efficient, highly integrated to save space. The cold pressing system brings the beauty & stability for the product to achieve the perfection.

### 技術參數/Technical Parameters

電源Voltage	AC380V	50/60HZ
功率Power	19KW	
氣壓 Air Pressure	0.5mpa	
溫控精確度Temperature Accuracy	± 1.5°C	
增壓壓力Plate pressure	12Ton	
工作面積Work Platform	400mm*600mm	
機器重量Weight	990KG	
包裝尺寸Package Size	長2150mm*寬1060mm*高2150mm
